

BLUE RIBBON *Premium* HORSE OATS

We believe in keeping your horse's diet simple, the way nature intended it to be.

Our Philosophy: A natural approach to equine nutrition.

While our diets are very diverse, a horse's digestive system is not designed to handle a wide range of feeds.

At Falk's Seed Farm, we believe that quality forage should always come first in your horse's diet.

However, when you ask more from your horse, you will need to ensure that adequate nourishment is provided.

We recommend supplementing your horse's diet with oats.

Blue Ribbon Premium Horse Oats

A Safe and Nutritional Source of Natural Feed!

Here at Falk's Seed Farm, we recommend natural oats as the perfect supplemental feed.

Oats have been the preferred feed choice of the equine industry for centuries and continue to be one of the best and safest choices of feed for your horse.

At Falk's Seed Farm, we pride ourselves on quality. Our Blue Ribbon Premium Horse Oats are cleaned to specific standards. You won't find a better, cleaner oat feed on the market.

Natural whole oats provide a "safe" source of nutrition for all horses at any age. It is hard to improve on this natural feed that is a natural fit for all horses at any performance level or stage of development.

Oats are also easier to chew than other grains and horses absolutely love the taste of our oats.

Try our Blue Ribbon Premium Horse Oats today. Your horse will thank you.

There's a reason why we call it "the perfect feed, naturally."

Blue Ribbon Premium Horse Oats

You won't find a better, cleaner oat feed on the market...

Oats are one of the "safest" grains to feed horses because oat starch is more easily digested in the horse's small intestine than the starches found in corn or barley. Therefore, feeding oats helps minimize the potential problems of founder and colic caused from "hotter" feeds.

Both our hullless and conventional oat products are locally grown and cleaned to exacting standards to remove dust, debris, weeds, or any other crop seed. No additives or fillers are ever used.

Blue Ribbon Premium Horse Oats

- 100% natural
- Healthy
- Affordable
- Easy to digest
- Organic availability
- Grown in the USA

Just a few of the many reasons that make Blue Ribbon Premium Horse Oats the choice of serious horse professionals.
